Resources for Growth

1. There is a current estimated labor supply of 8,452 men and 6,800 women available for industrial jobs in the labor market area which includes the adjoining Tennessee counties of Montgomery and Robertson. In addition, 9,417 young men and 9,096 young women will become 18 years of age and potentially available for work before 1986.

2. Local transportation capability is excellent. Both Guthrie and Trenton are served by the Louisville and Nashville Railroad. The nearest piggyback facilities are located at Nashville, Tennessee, 49 miles southeast of Guthrie and 54 miles southeast of Trenton.

Interstate highways serving the Todd County area include the northeast-to-southwest Interstate 24, accessible five miles southwest of Guthrie, and Interstate 65, a north-south highway accessible 46 miles east of Elkton near Bowling Green. The Pennyriple Parkway and the Green River Parkway, both north-south multilane toll roads, are accessible 19 miles west of Elkton and 41 miles east of Elkton, respectively. U.S. highways 41, 68 and 79 serve Todd County directly.

Nine common carriers provide motor freight service to points in Todd County with three of these providing both interstate and intrastate service.

A local airport is available one mile southwest of Elkton. The nearest scheduled commercial airline service is available at Nashville, Tennessee, 68 miles southeast of Elkton. A commuter air carrier service operates 32 miles southwest of Elkton, near Clarksville, Tennessee.

3. Electric power is provided to Todd County by Pennyriple Rural Electric Cooperative Corporation. The Western Kentucky Gas Company supplies Elkton with natural gas. There are five propane dealers and nine fuel oil dealers serving the Todd County area.

4. Education is an important growth asset for Todd County. The Todd County public school system is accredited by the Southern Association of Colleges and Schools. A private elementary school also operates in the county.

There are 13 institutions of higher learning located within 65 miles of Elkton. Hopkinsville Community College, a unit of the University of Kentucky's community college system, is only 20 miles west of Elkton. Austin Peay State University is only 25 miles away in Clarksville, Tennessee.

The Bowling Green State Vocational-Technical School, 45 miles east of Elkton at Bowling Green, offers training in 25 course areas. The Madisonville State Vocational-Technical School, 52 miles northwest of Elkton at Madisonville, offers training in 17 course areas. Vocational training is also available at the Russellville Area Vocational Education Center, 16 miles east of Elkton at Russellville, offering 11 course areas; and at the Christian County Area Vocational Education Center at Hopkinsville, 20 miles west of Elkton, offering 10 course areas.

Occupational wage rates for specific industries are usually not available to most government agencies, and wage data furnished to state employment agencies by individual industrial employers are protected from disclosure by federal law. The most reliable up-to-date wage information can be obtained by direct contact with local employers.

Associated Industries of Kentucky, a voluntary organization of Kentucky businesses, regularly collects occupational wage rates and fringe benefits data from participating member firms. Data are compiled for over 127 clearly defined office, production, and service occupations. Tabulations are published for nine geographical areas of Kentucky, as shown on the map below. It should be noted that the data may be weighted by the preponderance of firms in the larger cities and may be somewhat higher than the rates paid in the smaller communities. Data from these tabulations are available, upon request, from the Kentucky Department of Economic Development, Frankfort, Kentucky 40601.

Associated Industries of Kentucky Area Wage Surveys

Up-to-date occupational wage rates of the existing industries are maintained by South Kentucky Industrial Development Association, Post Office Box 726, Hopkinsville, Kentucky 42240.
